OPTIONAL ADDITIONAL INFORMATION SUPPORTING NJD (e.g., discussion may include information reviewed to assess potential navigation or interstate commerce connections - 1 to 3 paragraphs): The less than 0.10-acre pond which now contains characteristics of an emergent wetland was created by ditching dry land. The impounded area now contains emergent wetland characteristics but lacks a hydrologic connection with nearby tributaries, and is located outside of any floodplain areas. Therefore, the less than 0.10-acre wetland lacks a hydrologic connection to waters of the United States or interstate commerce and is considered isolated.
